01

About the License

The “Made in Oman” logo is the official **National Product Identity** of the Sultanate of Oman. The license is issued by the **Directorate General of Industry** at the **Ministry of Commerce, Industry and Investment Promotion (MoCIIP)** under **Ministerial Decision No. 62/2023**. Applications are made online through the Ministry’s Made in Oman platform.

Consumer trust

An official national mark of quality and authenticity on your product.

Government priority

Priority for national products in government purchases and projects.

Promotion

Listing in the Ministry’s Omani products catalogue, plus national campaigns.

Export identity

A recognised Omani origin identity in GCC and international markets.

The logo may only be used **after** the license is issued, and only on the products named in it. Using it without a license can lead to a warning, a **fine of up to OMR 500**, suspension for up to one year, or revocation.

Your Path to the Logo

Company registered

Valid C.R. with production activity

Production license

Industrial license, plus industrial-estate license if applicable

Brand registered

Trademark protected before printing the logo

Made in Oman license

Application, Ministry review and issue

02 Prerequisites — Before We Apply

The Ministry only accepts applications from producers that are already set up and licensed, so these items need to be in place first. If any are missing, Oman Register can arrange them under a separate quotation.

1 Registered company in Oman **MANDATORY**

A valid Commercial Registration (C.R.) with the relevant manufacturing or production activities, plus Oman Chamber of Commerce & Industry membership.

2 Production license **MANDATORY**

A valid **industrial license** from MoCIIP. Craft, agricultural or fisheries production licenses are also accepted. Production must actually take place inside Oman. If the facility is in an **industrial estate or free zone** (e.g. Madayn estates), you also need the estate's own industrial / operating license.

3 Registered brand (trademark) **STRONGLY RECOMMENDED**

Register your product brand with MoCIIP's Intellectual Property department before the logo goes on your packaging. Oman is a *first-to-file* country: an unregistered brand is generally not protected. Each class of goods needs its own application.

4 Minimum 20% local content **MANDATORY**

The local value of each product must be at least 20% of its total value. The Ministry may verify this against supplier invoices.

$$\text{Local content \%} = (\text{Ex-factory price} - \text{value of non-Omani materials}) \div \text{Ex-factory price} \times 100$$

5 Environmental permit **IF APPLICABLE**

Required for activities with an environmental impact. See Section 03.

03 Environmental Approval

The Made in Oman license does not ask for a separate environmental certificate. However, any facility whose activity affects the environment must hold a valid **Environmental Permit from the Environment Authority**. The Authority classifies each activity (Category A, B or C), and higher-impact activities may also need an Environmental Impact Assessment by an approved consultant. Activities that commonly need approval include:

- Food & beverage processing
- Chemicals, detergents, cosmetics & perfumes
- Plastics, packaging & rubber products
- Building materials, crushers & quarries
- Fish, meat & agricultural processing
- Textile dyeing, washing & finishing
- Paints, coatings, adhesives & resins
- Metal works, plating, gold & jewellery refining
- Recycling and waste processing
- Activities using hazardous materials or producing emissions

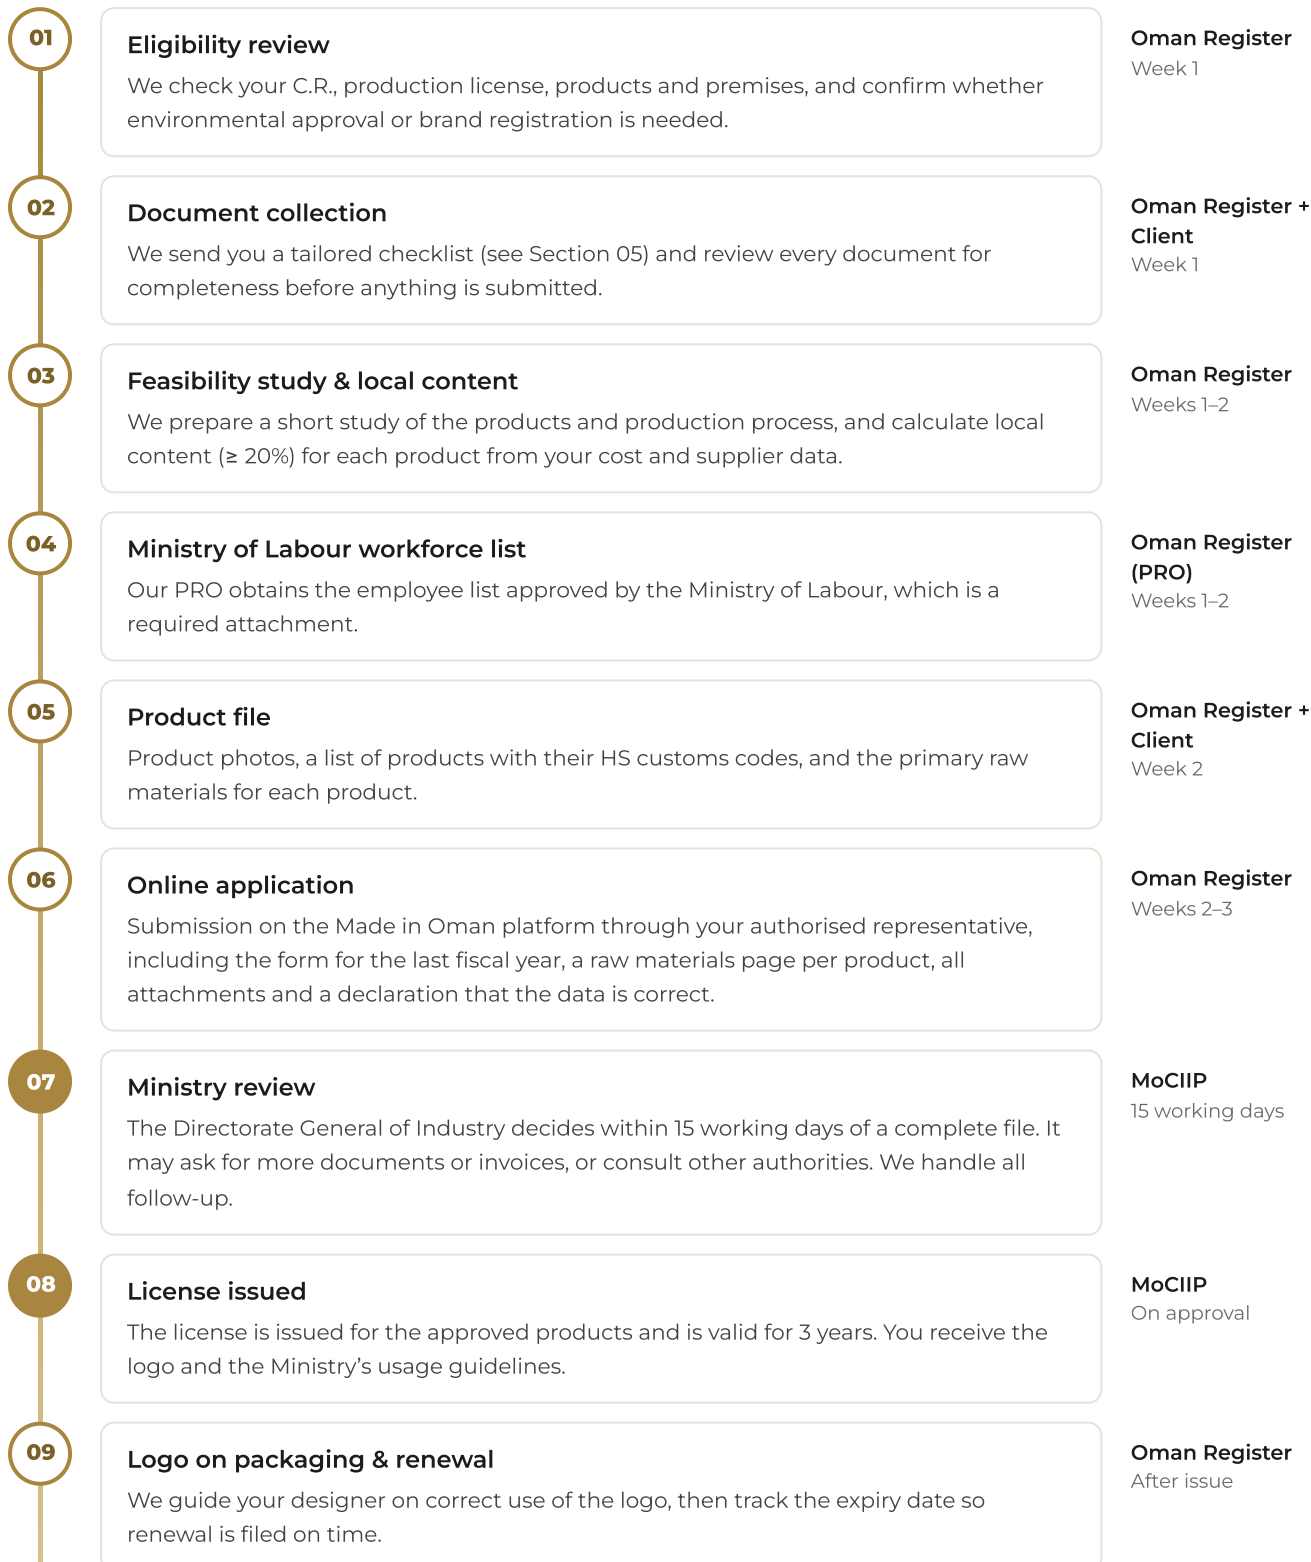

INDICATIVE BUDGET

OMR 500 – 7,000+

If your activity requires it, you must obtain approval from the Environment Authority. The cost depends on your activity category and on the approved consultant that prepares the file, and can be higher for high-impact projects. We confirm whether this applies to you during the eligibility review.

04 Application Process — Step by Step

○ Handled by Oman Register ● Government stage

If an application is refused, a grievance can be filed with the Minister within 60 days. A new application can be filed one year after a refusal, so we make sure the file is complete the first time.

05 Required Documents

Please prepare clear scanned copies (PDF) of the following. We confirm the final list for your case after the eligibility review.

COMPANY & LICENSES

- ☐ Commercial Registration (C.R.) certificate, valid
- ☐ Oman Chamber of Commerce & Industry membership certificate
- ☐ Industrial license (or craft / agricultural / fisheries license)
- ☐ Industrial estate or free zone operating license (if applicable)
- ☐ Environmental permit (if applicable)
- ☐ Factory lease or ownership document and municipality license
- ☐ Trademark registration certificate (recommended)

AUTHORISED SIGNATORY

- ☐ ID card or passport copy of the authorised signatory
- ☐ Authorisation letter for Oman Register to act on your behalf
- ☐ Contact email and mobile number for the platform account

WORKFORCE

- ☐ Employee list approved by the Ministry of Labour (we obtain this)

FINANCIAL & PRODUCTION

- ☐ Financial data / statements for the last fiscal year
- ☐ Cost breakdown per product, including ex-factory price
- ☐ Raw materials list per product, with origin and suppliers
- ☐ Invoices from local and foreign suppliers
- ☐ Short description of the production process and capacity

PRODUCTS

- ☐ List of products to be licensed, with HS codes
- ☐ Clear photos of each product and its packaging
- ☐ Product labels or specifications

06 License Validity & What You Receive

ILLUSTRATION

NATIONAL PRODUCT IDENTITY LICENSE

ترخيص هوية المنتج الوطني

License No.

Establishment
C.R. No.

Industrial License

Licensed products

Issue date

Expiry date **Issue date + 3 years**

Outline for explanation only. This is not an official document, and the real license is issued in the Ministry's own format.

VALIDITY

3 years

RENEWAL

Yes

SCOPE

Per product

- Valid for **3 years** from the date of issue and renewable through the Ministry.
- Covers only the **products named** in the license. New products need a new or updated application.
- Your production license must stay **valid** for the whole period.

YOU RECEIVE

- The official license for your approved products
- The right to use the logo, with the Ministry's usage guidelines
- Eligibility for the Omani products catalogue
- Priority in government procurement

07 Cost Estimate

FREE

Submitting the application to the government costs nothing. A complete, approvable file still involves several related costs, listed below in Omani Rials.

#	ITEM	OMR
1	Government application fee — MoCIIP Made in Oman license application and issuance	FREE
2	Ministry of Labour — approved workforce list Required attachment to the application	50
3	PRO / Government liaison (Mandoob) services In-person follow-up with ministries and authorities	120
4	Feasibility study & technical file Depends on the activity and on how complex the product is	240 – 600
5	Supporting documentation & incidentals Approximate breakdown:	200
	· Local content (ICV) calculation & supplier invoice compilation	60
	· Product photography for the application	40
	· HS code classification of products	25
	· Arabic / English translation & typing	35
	· Document attestation & certified copies	20
	· Printing, courier & miscellaneous	20
6	Oman Register professional service fee Full management from eligibility review to license issuance. Depends on the type and number of products	800 – 2,500
Estimated total		OMR 1,410 – 3,470

- + Environmental approval — only if required** **500 – 7,000+**
Environment Authority permit and any studies, depending on the activity category and the approved consultant

NOT INCLUDED

- Company formation, C.R. and Chamber membership
- Industrial license and industrial-estate approvals
- Trademark (brand) registration
- Factory set-up, municipality and civil defence approvals
- Packaging design and printing

NOTES

- We can quote any excluded item separately.
- The final service fee is confirmed once we have reviewed your products.
- Government and third-party charges follow official rates at the time and may change.

08 Estimated Timeline

Week 1

Eligibility review & document collection

Weeks 1–3

Study, local content, workforce list, product file & submission

+15 working days

Ministry review of the complete file

Typical total, excluding environmental approval

≈ 4 – 8 weeks

If an environmental permit is needed, the Environment Authority decides within about 30 working days of a complete file, plus the time to prepare any study.

09 Scope & Responsibilities

OMAN REGISTER WILL

- Review eligibility and identify any missing licenses or approvals
- Prepare the feasibility study, technical file and local content calculation
- Obtain the Ministry of Labour workforce list through our PRO
- Complete and submit the online application
- Follow up with MoCIIP until the license is issued
- Advise on correct logo use and remind you before renewal

THE CLIENT WILL PROVIDE

- The documents listed in Section 05
- Financial and cost data for each product
- Product samples or photos
- Authorised signatory access for the online platform
- Timely answers to any Ministry requests

Next steps

1

Send us your C.R., production license and product list.

2

We confirm eligibility and send a fixed quotation.

3

Once you confirm, we start preparing your file.
